

"Why CRDN"

Kaizen

The Art of Working Smarter

"A 24/7 Rapid Response Team at Competitive Prices"
Exclusively Contents, Inc. (A CRDN Franchise Company)

CRDN works with contractors as they restore, repair, and rebuild damaged properties. While the contractor handles the physical structure, our team steps in to take care of the textiles, electronics, and art. We test electronics and remove affected items quickly so you have a clear space to carry out your work. CRDN will coordinate with your construction team to meet your needs.

Our Step-by-Step Process

Clear The Loss Site

Before your work can begin, the items on the premises need to be removed or relocated. CRDN assists in this process by clearing the loss site of affected items, such as clothing from closets, appliances from kitchens, and art from walls

Provide Storage

Part of our restoration process is storing the inventory in a safe place while you rebuild. We return the most necessary items to policyholders and keep the rest in our long-term storage facilities so it's away from the loss site.

Coordinate Delivery

We work with contractors to settle on a delivery plan that meets everyone's needs. Once the bulk of the construction work is completed, we will deliver restored items back to the policyholder.
